Project 316 Audio Player Recipients

4,000 Project 316 Audio Players Distributed!

As we continue seeing chaos consume our world today, we praise God that the message of the Gospel and the teachings of God's Word continue through the distribution of Project 316 audio players. The original strategy of using audio players wasn't even on our radar when we first went over to Thailand almost 20 years ago. However, when we look back to when we started, we can see (and will continue to see) the impact God has allowed us to have through these little handheld devices. It's truly amazing! We look forward to the day when we can meet all of the literally thousands of Hmong who have come to believe in the Gospel through the audio players and the many believers who have been helped in their walk with Christ. We have testimonies of believers finally understanding what the Bible teaches, how the Bible is put together, and how to live the life of a believer for the first time. It has been extremely beneficial for believers who have had some form of physical handicap or situation where they couldn't meet with the church regularly to study. Even if they physically could meet, the believers in many of the local churches couldn't teach the Bible because they didn't have a resource like a Project 316 audio player. Obviously none of this is possible without your financial and prayer support. Will you help us distribute the next 1,000 players?

Prayer Requests

Please pray...

- **Once again, pray for those who help distribute the audio players since they go to very remote and often highly persecuted areas that are not friendly to believers.**
- **Pray that funds for additional audio players will continue coming in. There is always demand for more.**
- **Praise God that we have been able to distribute 4,000 Project 316 audio players to the Hmong!**

This ministry also wouldn't succeed unless we had an indigenous team to help with distribution. Although our distribution team is small, they are extremely effective. Since the team consists mostly of native Hmong, we are able to distribute players into very isolated and heavily policed areas. A brief text message (just received recently) from one of our ministry team members said, *"Kuv mus tshaj Tswv Yexus txoj Kev hlub puag Hauj yaj ,coob tug tau hnov thiab muab .mp3 rau SD,"* which when translated says, *"I went to spread the love of Jesus Christ [the Gospel] to the Hmong people. Many heard my message and downloaded the .mp3 files onto an SD card."* Although we don't have the complete story, he received a batch of 100 players about a week ago and is taking them to many villages in his home country, but can only bring a few for each village he visits. However, anyone can bring him a micro-SD card and upload all the files so they can also listen to what is on the actual players via their cell phones! We also provide micro-SD cards for him, but in this case, the people decided to bring him the micro-SDs cards themselves! Praise God!

New Website!

We've created a new website (same address: www.316ministryz.com) and have finally been able to upload the site. When accessing our site please ignore the security protocols that you might get from your internet browser. Since there is no personal information that you would be submitting, there is nothing to worry about. Plus, this can help deter anyone searching with ulterior motives if they were searching for ministries such as ours.

God bless, and maranatha
